Circa initium lectionis artis queritur · Utrum diffinitio artis sit

bona quomodo ars est taliter
sic diffinitur. Ars est collectio multarum
preceptionum ad finem unum tendentium. Alii sic: Ars est
habitus certa ratione factivus. Hoc tamen est dicere: Ars est habitus
intellectualis certa ratione factivus, id est qui agit aliquod opus
non mancum cum tale opus fit cum certo tali sicut certo.
Et hic habitus per quem ... et causatur per qualitatem difficulter
mobilem a subiecto suo. Secundo certa ratione exprimit habitus excellentiam.
Contra diffinitionem arguitur: aliqua est ars que non est habitus,
igitur diffinitio artis male posita. Et quia per diffinitionem dicitur
oppositum. Item arguitur sic: Si ista diffinitio non conveniret
nulli arti, tunc esset danda alia diffinitio que conveniret
nulli arti; consequens nulla est danda. Igitur prima ... assumptio secunda pro-
batur: si aliqua maxime ista. Ars est notitia certa ratione
factiva. Et consequentia. Secundo quod opinio est ars. Assumptio quod opinio est noti-
tia certa ratione factiva, id est ars est quedam adiffinitione
... dicitur quod debet addi firma. Contra aliqua opinio est notitia
firma, id est ... assumptio supposito quod aliquis habeat con-
clusionem certam opinionem et deinde ... tunc ista opinio
est notitia firma et per consequens est ars. De hoc questio quarto
utrum diffinitio artis sit bene data. Dicitur quod sic. Quia ... quedam
ars est duplex: quedam est ars habitualis, alia est ars actualis. Actu-
alis est qua quis actualiter assentit alicui conclusioni
demonstrative probate. Alia est ars habitualis et dicitur notitia
acquisita per frequenter assentire conclusioni demonstrative probate per
multas demonstrationes vel per unam demonstrationem sepius reiteratam.
Modo ad propositum dico quod ista diffinitio non convenit nulli arti ergo

eo quod natura non intendit individuum nisi propter perpetuitatem speciei ut
sicut patet secundo de anima. Et ideo magis intendit speciem tenet consequen-
tia propter unum quod [illegible] et ipsum magis [illegible] secunde substantie secundum aliud
sunt priores primis via simplicitatis eo quod species est simplicior individuo
quia individuum includit naturam speciei. Et licet omnibus illis
modis secunde substantie sunt priores primis tamen prime substantie
sunt priores secundis via subsistendi que perfectas [illegible] quia
primis substantijs et non secundis. Et ideo plures primas substantias vocat
individua secundas vero [illegible] genera et species. [illegible] albertus dicit quod
prima substantia est ultima ordine essendi et [illegible] predicamenti consistendi

[illegible] remitti vel [illegible] ad [illegible] et [illegible] et [illegible]
[illegible] Item [illegible] intendi et remitti
[illegible] suscipit magis et minus [illegible]
aliquis [illegible] quod [illegible]
[illegible] quod [illegible] est in [illegible] completo [illegible] est quod in [illegible] completo
[illegible] et 2o suscipere magis et minus [illegible] dupliciter uno modo quo
ad actum subsistendi et ista [illegible] suscipit magis et minus et [illegible]
volunt [illegible] dicunt [illegible] hic [illegible] Alio modo [illegible] suscipere magis

et minus et hic [illegible] in [illegible] Alio modo suscipere magis et
minus [illegible] quo ad actum [illegible] existendi sine quo
ad existenciam [illegible] quod [illegible] est magis [illegible] quod [illegible]
quod 2a est incorruptibilis [illegible] est corruptibilis [illegible] quo ad actum [illegible]
[illegible] est magis [illegible] quam 2a eo quod [illegible]
et hic [illegible] dicitur [illegible] quo [illegible]
[illegible] et minorum et isto modo [illegible] suscipit magis et minus
eo quod una [illegible] est [illegible] quam alia eo quod [illegible] duas
[illegible] et [illegible] non [illegible] est [illegible] quod [illegible]
[illegible] est magis [illegible] quam [illegible] Alio modo quo ad dispositionem vel quo
ad qualitates dispositivas ista [illegible] suscipit magis et minus
[illegible] aqua suscipit magis de frigiditate quam de caliditate vel econverso
Alio modo quo ad eius essenciam et [illegible] non suscipit magis et
minus et hic [illegible] in ista qualitate [illegible] [illegible]
est ista quod magis et minus causatur [illegible] et recessu [illegible]
[illegible] autem [illegible] et [illegible] in topicis [illegible]
[illegible] est quod est [illegible] sed [illegible] non [illegible]
[illegible] est [illegible] indivisibili [illegible] suscipit
magis et minus [illegible] non suscipit magis et minus
[illegible] nota [illegible] quod [illegible] non [illegible]
[illegible] addita [illegible] ad alium non manet [illegible] et [illegible]
sic est [illegible] de alio [illegible] essenciam non suscipit magis

et unum secundum ad perfectionem septimo methaphysice quod dicit quod forma est magis substantia
quam materia. Secundo quia vult quod forma est nobilior quam materia ut perfectior est
quam materia. De alio perfectius decet intra [illegible] lux est magis ignis
quam flamma et flamma est magis ignis quam carbo non vult quod
est magis ignis quo ad essentiam sed quo ad activitatem ita
quod flamma est maioris activitatis quam carbo quia magis comburit et
hoc est verum. De alio dicitur quod ad intensionem alicuius non requiritur quod ha-
beat plures gradus perfectionis sive diversa [illegible] sed requiritur quod [illegible] cum
sit additio ad intensionem et per hoc maneat eadem species non sic [illegible]
est si deus addet unum gradum perfectionis ut dictum est [illegible]
[illegible] non manent eadem specie [illegible] deus non potest addere gradum
aliam manere eadem specie sed [illegible] non manere eadem specie. De alio
dicitur [illegible] non est perfectior [illegible] quo ad essentialia sed [illegible] quo
ad bona gratuita. De alio quietator 3o celi [illegible]
[illegible] octavo dicit [illegible] forme substantiales elementorum intendunt et
remittentur dicitur quod quietator fuit in [illegible] sed quarto [illegible]
[illegible] ipse [illegible] et dicit quod [illegible]
[illegible] ad [illegible] nicolai theoforsti et alexandri
[illegible] qui tenuerunt quod forme substantiales intenderentur et re-
mitterentur [illegible] quod ipse [illegible] non tenetur quia fuit [illegible]
[illegible] de [illegible] aliqua [illegible] quod caliditas
ignis sit ut octo tunc ista caliditas intendi et remitti
volo ergo quod remittatur ad unum gradum tunc quero vel forma substantialis
ignis remittitur vel non. Si sic habeo propositum. Si non quero
[illegible] de 2o gradu sit quod non remittatur 2m gradum caliditatis tunc
quero [illegible] ignis deperdit 2m gradum caliditatis [illegible] forma
substantialis ignis manet illesa vel non. Si dicitur quod manet illesa
tunc iterum quero de 3o gradu [illegible] ad octavum [illegible]
remissum vel remittitur forma ignis vel non. Si remittitur [illegible]
propositum. Si non tunc stabit in igne sine caliditate eo quod [illegible]
[illegible] de frigiditate quam caliditate [illegible] nota [illegible] arbor [illegible]
quod [illegible] cum sui effectum intendunt et remittentur [illegible]
[illegible] perfecte sed hoc non potest stare quod forma [illegible] effectum remitteret
[illegible] ut patet in [illegible] et ergo alii dicunt sic [illegible]
[illegible] quod caliditas ignis sit ut octo et quod remittitur cali-
ditas ignis et dicunt quod statim est in illa remissione eo quod ignis
non [illegible] caliditate potest manere quia [illegible] aliqua caliditas
[illegible] forma ignis non potest manere et sic [illegible]
[illegible] caliditas [illegible] dicitur [illegible] forma ignis et [illegible]
non potest manere ut in [illegible] caliditas ignis est ut octo et caliditatis
[illegible] ibi ignis [illegible] de caliditate [illegible]
[illegible] de frigiditate et sic tunc forma ignis [illegible]
[illegible] de ultimo [illegible] tenet quod forma substantialis [illegible]
[illegible] introducatur et non [illegible] sed [illegible]
sine dispositione [illegible] illius forme [illegible] materia est totaliter
disposita tunc forma [illegible] introducitur sed [illegible] successive
[illegible] et [illegible] et ergo [illegible] est quod forma [illegible]

introducatur [illegible] per partem quia sic introducatur [illegible] dispositive
et [illegible] non sic [illegible] intendi et remitti sed [illegible] sequitur
quod forma [illegible] sui et perfectior est quam in esse incompleto quia
totum est perfectius suis partibus. Sed forma [illegible] suscipit magis et minus
magis quia minus dicit [illegible] extensionem sed magis dicit intensionem [illegible]
[illegible] non sic quod [illegible] suscipiet magis et minus [illegible]
substantiales [illegible] magis et minus [illegible] potest [illegible] magis et minus [illegible]
[illegible] est magis [illegible] quam alter [illegible] est magis
[illegible] quam alter [illegible] est magis [illegible] sapiens
[illegible] quia non [illegible] ergo non [illegible]
qui tollit a [illegible] operationem tollit [illegible] essentiam [illegible]
[illegible] sit [illegible] substantiales et [illegible] magis et minus [illegible]
[illegible] est magis [illegible] sic [illegible] una [illegible] est magis
[illegible] quam alia [illegible] potest [illegible] magis et minus eo quod [illegible]
[illegible] est magis [illegible] quam alter [illegible] quod unum
[illegible] est magis [illegible] quam aliud [illegible] quam [illegible] una
[illegible] est magis [illegible] alia quia [illegible] est magis [illegible]
quod [illegible] potest [illegible] magis et minus et est [illegible] substantialis
[illegible] est [illegible] plata ut [illegible]
[illegible] quod [illegible] plures potentias [illegible] tunc [illegible] quod [illegible]
[illegible] plures formas [illegible] plures operationes [illegible] formas
[illegible] quia operatio arguit formam ergo [illegible] operationes [illegible] non
[illegible] de [illegible] ista [illegible] et [illegible] quod [illegible]
[illegible] et non [illegible] eo quod [illegible] quia [illegible] quantitas
non [illegible] magis et minus sed [illegible] vole [illegible]
ut est [illegible] ut [illegible] non suscipit
magis et minus quia [illegible] est magis [illegible] quam [illegible]
Alio [illegible] vole [illegible] ut [illegible] actu [illegible] suscipit
magis et minus quia [illegible] plus [illegible] quam [illegible]
[illegible] quod [illegible] qui aufert [illegible] operationem [illegible] est verum
[illegible] tollit [illegible] operationem [illegible] ad actum et ad potentiam [illegible]
quo ad actum [illegible] fatuus [illegible] tollit quo ad actum
non [illegible] quo ad potentiam quia fatuus [illegible] potest [illegible]
[illegible] de 2o [illegible] ignis [illegible] recipiunt [illegible]

sed bene discontinua. Sed quod dicitur partes istarum duarum superficierum
copulantur ad terminum communem verum est partes collective non
autem divisive. Unde nota differentia est inter continua contigua

Sed consequenter se habentia sunt inter que non mediat
aliquid eiusdem sicut domus due inter quas non me-
diat alia domus. Et sic due linee discontinuate vocantur
bene contigua vel consequenter se habentia non autem con-

Cum partes quantitatis continue copulantur ad terminum communem [illegible] est in diffinitione mala arguitur
quia si aliquis diceret illud. Item si partes quantitatis continue copulantur ad terminum
communem vel iste terminus esset divisibilis vel indivisibilis non indivisibilis
quia sic continuum componeretur ex indivisibilibus. Sed quod non divisibilis probatur quia tunc
sequitur quod partes quantitatis continue non copularentur ad terminum communem.
Probatur quia iste terminus faceret partes distare et partes non copularet arguitur [illegible]
intermedio faceret aliquam distantiam sed iste terminus poneretur in medio et faceret aliquam
distantiam arguitur probatur quia inter illa dicuntur extrema distare que habent
medium. Item si iste terminus esset principium vel finis esset principium [illegible] extrinsecum vel
intrinsecum non extrinsecum [illegible] dici [illegible] intrinsecum. Cum non [illegible] principium
intrinsecum probatur quia iste terminus non est aliqua pars eius et principium intrinsecum non est principium
intrinsecum arguitur quia saltem [illegible] pars illius termini et pars illius partis quia iste terminus
est indivisibilis ergo una pars est unius et alia pars alterius [illegible]
[illegible] Item [illegible] duo asserentes continuarent quod illi essent [illegible]
[illegible] continua arguitur quia eius partes copulantur ad terminum communem quia ad [illegible]
quod est terminus [illegible] est medium quod coniungit tres partes ad [illegible]
[illegible] quod sit copulatio partium quantitatis continue ad terminum communem
[illegible] nota partes copulantur ad terminum communem non est ad [illegible] quantitatis continue
assignatur unum terminum qui est finis unius et principium alterius. Verbi gratia sit
linea a b cuius terminus sit c. Tunc partes eius scilicet a b copulantur ad c principia
vel alio sic partes copulantur ad terminum communem est quod assignatur aliquod principium
alicui de utraque parte vel de ambabus partibus sic quod assignatur continuet
ipse aliquid quod est finis unius partis et principium alterius partis. Verbi gratia sit
linea a b cuius partes sint a d et b d et terminus sit c et tunc c continuet
aliquid scilicet d sic quod sic quod est finis unius partis et principium
alterius partis [illegible] c d est finis a et c principium b a c d c b de
alio quando dicitur quod iste terminus sit indivisibilis [illegible] partes linee
copulantur [illegible] non [illegible] quia [illegible] continuum est divisibile in infinitum [illegible]
[illegible] dicendum est quod iste terminus est divisibilis [illegible] esse sed [illegible] aliquo modo est
divisibilis quia [illegible] non sit divisibilis in partes quantitatis [illegible]
quantitates eodem modo se habent ad quantitatem continuam sicut [illegible] divisibilis
ad lineam vel ad partes linee [illegible] est terminus dicte [illegible] iste terminus non [illegible]
in partes sic quod [illegible] partes eodem modo se habent ad partes linee vel alio [illegible]
iste terminus est divisibilis [illegible] esse sed [illegible] magnitudinis est indivisibilis

De alio ergo iste terminus est divisibilis quo [illegible] partes copulantur ad terminum communem
ubi [illegible] iste terminus [illegible] sit quod non est finis unius partis et
principium alterius partis tunc partes [illegible] possent distare [illegible] quia iste terminus
[illegible] sic quod est finis unius partis et principium alterius partis et [illegible]
non opporteret quod partes [illegible] distarent. Sed cum iste terminus sit [illegible] extrinsecum
vel principium intrinsecum [illegible] quod [illegible] sic totum est principium extrinsecum
[illegible] est [illegible] probat. Sed [illegible] aliquid partem tunc est principium
intrinsecum alicuius et principium extrinsecum alterius. De alio [illegible] duo asserentes
[illegible] non esset quantitas continua quia [illegible]
non esset terminus [illegible] sed [illegible] quod sit principium intrinsecum
unius et finis alterius non sic non est [illegible] quia [illegible]
est principium utriusque extrinsecum [illegible] illi duo asserentes non sunt quantitas
continua. Cum [illegible] quod nigredo et albedo non possent continuari [illegible] quia
non copulantur ad terminum communem [illegible] suppono quod sit unum extremum [illegible]
albi et [illegible] nigri tunc partes nigredinis et albedinis non
possunt copulari ad terminum communem [illegible] quia [illegible] copularentur ad albedinem
vel nigredinem vel ad utramque [illegible] non ad albedinem quia
albedo non [illegible] nigredini [illegible] nigredo [illegible] sed [illegible]
utramque [illegible] quia tunc copularentur ad [illegible] adterminum [illegible] quod copu-
lantur ad magnitudinem. Cum tunc [illegible] quod albedo et dulcedo in lacte
sunt continua [illegible] quia possunt copulari ad terminum communem quia ad magnitudinem

[illegible] esset verum tunc [illegible] quod [illegible] penetratio dimensionum quod non est
[illegible] sequela quia albedo penetrat dulcedinem lactis et econverso.
Item [illegible] terminus ad quem copulantur partes [illegible] divisibilis tunc [illegible]
linea est divisibilis in duas partes equales [illegible] dividatur linea
in duas partes vel iste terminus esset in una parte vel in alia [illegible]

quantum de capite patet non distinguimus quantum et quantitatem. Contra: ista proprietas
non est propria quia si aliquod maiore quantum non est [illegible] propter ista
proprietas non convenit omni quantitati et non est propria. Assumptum probatur quia in ali-
qua quantitate non debet dici aequale et inaequale praedicatum
quia in quantitate ultimae speciei non dicitur aequale et inaequale. Probatur
si aliquid maius ultima specie [illegible] quia ipsa non est aequale
[illegible] quia de ponit disiunctivum non [illegible] textum qui cum patet
copulativum et affirmatur concedo proprietatem disiunctivum tunc convenit
[illegible] quia in [illegible] aliquid dicitur aequale vel inaequale [illegible]
[illegible] aliquid dicitur non aequale et in [illegible] aliquid dicitur aequale vel inaequale
[illegible] dicitur [illegible] videntur [illegible] non est aequalis sed aptum natum
est esse aequalis. Item [illegible] in de capite [illegible] vel privative [illegible]
[illegible] [illegible] quia conveniunt indivisibilibus probatur quia
indivisibilia non sunt aequalia eo quod non sunt quanta sed quia non [illegible]
quia tunc convenit omni quantitati probatur quia non convenit quantitati [illegible] quia quan-
titas nullius non est aequalis vel inaequalis [illegible] inaequalis [illegible]
[illegible] non est aequale sed aptum natum est esse aequale [illegible] quia [illegible]
esset aequale [illegible] quod non est [illegible]. Item aequale vel inaequale non con-
venit omni quantitati probatur quia duae lineae dicuntur esse aequales vel inaequales
et in [illegible] quantitate probatur quia [illegible] quantitate [illegible] lineae [illegible]
quod esset aequales [illegible] [illegible] tunc [illegible] quod aequale et inaequale
conveniunt lineis [illegible] et tunc non erit [illegible] quantitatis quod non [illegible]
[illegible] probatur quia dicuntur aequales vel inaequales [illegible] [illegible] est [illegible]
[illegible] quia ipsum est [illegible]. Item ista proprietas non convenit quantitati di-
screte [illegible] quantitate discreta non dicitur aliquid aequale vel inaequale [illegible]
quia in [illegible] intelligentiarum non dicitur aequale vel inaequale probatur
suppono quod sit unum quantum tunc in quantitate illa non dicitur aequale
vel inaequale [illegible] et suppono quod sit una quantitas infinita tunc
[illegible] non dicitur aequale vel inaequale probatur quia [illegible] quantitas non [illegible]
[illegible] alteri quantitati ergo non est aequalis quia finiti ad infinitum nulla est
proportio. De primo: ista proprietas copulative posita non valet ut arguit.
Arguit quod sic non conveniunt quantitati ultimae speciei eo quod quantitas
ultimae speciei non est aequalis sed inaequalis et ergo [illegible]
[illegible] et [illegible] textum [illegible] quae quantitas
[illegible] aequale vel inaequale sed quod textum [illegible] dicitur aequale
et inaequale [illegible] de alio. Ista proprietas soli quantitati
et non convenit [illegible] [illegible] inaequale [illegible]
non [illegible] dicitur [illegible] quod non est aequale [illegible] non [illegible] capite [illegible]
quia sic convenit [illegible] eo quod in [illegible] aliquid dicitur non aequale
Alio capite [illegible] quod non est aequale sed aptum natum est esse aequale
[illegible] non de capite [illegible] quia sic [illegible] non esset in aequale
[illegible] capite [illegible] ut [illegible] magis [illegible]
[illegible] et tunc inaequale dicitur esse quantum quod comparatum ad aliud [illegible]
[illegible] excedit aliud et [illegible] capite [illegible] et tunc [illegible]
[illegible] et [illegible] [illegible] et [illegible] de [illegible] et quanto dicitur [illegible]
duae lineae dicuntur esse aequales vel inaequales non in quantitate sed [illegible]
quantitates sed in [illegible] sed quod dicitur quod aequalitas convenit [illegible]

distinguendo [illegible] [illegible] quod aequalitas vel inaequalitas [illegible]
[illegible] [illegible] [illegible] eo quod sunt proprietates quae possunt [illegible]. [illegible]
[illegible] et [illegible] quod [illegible] quae sunt [illegible] quantitates [illegible]
[illegible] et tunc [illegible] et [illegible] ergo non sunt proprietates [illegible]
[illegible] est ista quia [illegible] aequale dicit relationem fundatam in quantitate et [illegible]
[illegible] relationem fundatam in quantitate [illegible] proprietas. De alio quando dicitur quod
proprietatem non [illegible] [illegible] aliquid [illegible] quia sic non conveniret quantitati di-
screte [illegible] intelligentiarum ut arguebatur [illegible] aliqua ut sunt
[illegible] in [illegible] aliquid vel aliqua dicitur vel dicuntur esse aequalia
vel inaequalia [illegible] [illegible] dici aliquod [illegible]
Alio capite [illegible] [illegible] [illegible] [illegible] non de capite in proprietate
[illegible] de capite [illegible] [illegible] aggregatum [illegible] vel [illegible]
[illegible] capite [illegible] in [illegible] intelligentiarum aliquid aggregatum dicitur
aequale vel inaequale [illegible] tunc quod dicitur [illegible] quod [illegible] quantum [illegible]
[illegible] in quantitate [illegible] vel [illegible] dicitur aequale vel inaequale
[illegible] aptum [illegible] in quantitate aliquid aptum est dici aequale vel
[illegible] [illegible] quod [illegible] non est [illegible] quia [illegible] est aliquid quantum tunc
[illegible] quantum est divisibile et [illegible] partes quae partes [illegible] dicuntur
quantae [illegible] quantitas [illegible] est alia a quantitate [illegible] illud quantum
dicitur aequale vel inaequale [illegible] [illegible] eo quod [illegible] est inaequale
[illegible] et quod dicitur sit unum quantum infinitum tunc dicitur quod in [illegible]
[illegible] dicitur aequale quia [illegible] aliquid infinitum [illegible] quod dicitur finiti ad infinitum
nulla est proportio [illegible] notandum proportio est duplex quia est rationalis et est
[illegible] aliquid alteri proportionatur [illegible] proportionem ut duplum ad quadruplum
[illegible] [illegible]. Alia est proportio irrationalis et est [illegible] aliquid quod
ad aliud [illegible] [illegible] finiti ad infinitum quia non est [illegible]
quantitas infinita excedit quantitatem finitam non dicitur finiti ad infinitum
nulla est proportio proportione [illegible] sive rationali sed bene irrationali. Item
ista proprietas non convenit soli quantitati probatur quia convenit qualitati probatur et pono
quod sunt duae albedines [illegible] [illegible] tunc istae albedi-
nes dicuntur esse aequales vel inaequales probatur quia sunt aequales eo
quod una non excedit aliam [illegible] sunt aequales vel inaequales [illegible]
[illegible] ad totum [illegible]. Item ista proprietas convenit actioni
[illegible] probatur quia [illegible] actio sit [illegible] aequalis vel inaequalis [illegible]
[illegible] et convenit [illegible] potentiis quia duae potentiae sunt aequales
[illegible] [illegible]. Item [illegible] est quaedam quantitas et [illegible] in [illegible]
dicitur aequale vel inaequale probatur quia [illegible] est [illegible]. Item in proprietate
frustra [illegible] aequale [illegible] quia sufficeret dicere inaequale probatur quia [illegible]
aequale est inaequale et non [illegible] quia quantitas [illegible] est inaequalis
et [illegible] dici aequale [illegible] proprietas est in [illegible] quia [illegible]
[illegible] magis [illegible] eo quod inaequale [illegible] aequale et [illegible]
[illegible] de primo: ista proprietas non convenit qualitatibus [illegible]
[illegible] aequalitates [illegible] [illegible] quantitates quia capite
[illegible] duae albedines [illegible] est [illegible] tunc istae duae al-
bedines [illegible] considerantur [illegible] tunc possunt
aequales vel inaequales [illegible] non considerantur in [illegible] tunc dicuntur

[illegible]

quia iste non est magis [illegible] ad alterum ad [illegible] respectivum
[illegible] aliquid [illegible] aliquid [illegible] est divisa [illegible]
secundum praedicabilem ut [illegible] unum praedicabilium quod dicitur absolutum [illegible]
respectivum de alio [illegible] dicunt quod res relata non sit fundatum [illegible]
[illegible] res relata secundum [illegible] aliquid. Aliter tamen potest dici quod res relata
sit fundatum relationis et non dicitur [illegible] fundatum quod esset [illegible]
[illegible] fundamentum quia praesupponitur a relatione et est [illegible]
sicut [illegible] quia sit aliquid album quia est
simile [illegible] album et simile sunt idem [illegible] non tamen [illegible] quod aliquid
quod est album quod esset simile albo [illegible] quod est simile albo [illegible] album
et non [illegible] quia non sit aliquod [illegible] album [illegible] simile albo quia stat [illegible]
tamen esset unum album et illud non esset simile albo. Ergo [illegible] relatio [illegible]
[illegible] a re relata [illegible] quia relatio incipit esse [illegible] res absoluta
incipit esse [illegible] relatio est res distincta a re relata. [illegible] quia paternitas incipit
esse [illegible] pater non incipit esse [illegible] suppono quod Sortes sit [illegible] 29o anno et generat
[illegible] filium tunc paternitas incipit esse in Sorte et tamen pater non incipit esse quia
Sortes non incipit esse [illegible] ut pater [illegible] quia [illegible] respectivum incipit esse [illegible] paternitas
incipit esse [illegible] paternitas advenit Sorti post complementum esse Sortis [illegible] relatio
est distincta a re relata [illegible] tenet quia hoc est [illegible] relatio est
[illegible] quod Sortes [illegible] vocatur pater et prius non vocabatur pater
et ergo relatio advenit Sorti post complementum esse Sortis. Confirmatur [illegible] paternitate
multiplicata non multiplicatur res [illegible] relatio est res distincta a re relata
[illegible] suppono quod Sortes habeat decem filios tunc paternitas [illegible] multiplicatur
et tamen Sortes non multiplicatur quia Sortes non est decem [illegible] quia alia est
paternitas Sortis ad primum filium et alia ad secundum [illegible] et tunc paternitas
multiplicatur quia hoc est multiplicatio. Et confirmatur [illegible] relatio corrumpitur re
relata manente [illegible] relatio est res distincta a re relata [illegible] quia corrum-
pitur paternitas Sortis et tamen Sortes non corrumpitur [illegible] pono quod Sortes ha-
beat filium et quod filius moriatur tunc paternitas Sortis corrumpitur et tamen
Sortes non corrumpitur ut suppono quod vivat [illegible] relatio est res distincta a re
relata. [illegible] ista sit [illegible] quidam qui voluit probare quod relatio sit res dis-
tincta a re relata [illegible]
[illegible] differt dicere paternitas incipit esse et incipit esse paternitas
quia prima est falsa eo quod valet [illegible] ista res quae est paternitas incipit esse [illegible]
secunda autem est vera [illegible] ista incipit esse paternitas quia valet [illegible] incipit esse res-
pectus Sortis ad filium etc. ista est vera [illegible] incipit esse paternitas et tamen [illegible]
paternitas incipit esse [illegible] differt dicere paternitas advenit
Sorti post complementum esse Sortis et advenit paternitas Sorti post complementum sui
esse quia prima est falsa sed secunda vera quia prima tamen valet ista res quae est paternitas
advenit Sorti post complementum esse [illegible] sed secunda est vera quia tamen valet
quod advenit [illegible] Sorti ad filium post complementum sui esse et hoc est verum. De
[illegible] dicitur quod multiplicatur tamen paternitas [illegible] paternitas non
multiplicatur [illegible] corrumpitur tamen paternitas [illegible] paternitas non
corrumpitur. Ergo [illegible] ista non valent [illegible] quod contradictoria possent veri-
ficari de eodem sine mutatione [illegible] quia prius Sortes
prius non fuit pater et Sortes iam est pater et hoc est sine mutatione [illegible]
[illegible] mutatio non est facta in Sorte [illegible]
[illegible] tunc paternitas advenit Sorti post complementum esse sui et [illegible]
relatio est res distincta a re relata. Item similitudo est distincta a

fundato et similitudo est relatio [illegible] relatio est distincta a suo fundamento [illegible] probatur quia
similitudo est distincta a [illegible] similitudo est distincta a fundamento tamen quia fundamentum
[illegible] similitudinis est [illegible] quod sit distincta a fundamento [illegible] fundamentum
similitudo distinguitur ab albedine [illegible] distinguitur a fundamento [illegible] Ergo
[illegible] alicubi similitudo intenditur ubi tamen albedo non intenditur [illegible]
similitudo est distincta ab albedine. [illegible] et suppono quod Sortes sit albus
ut tria et Plato sit albus ut quatuor et tunc remittatur [illegible] Platonis
tamen tunc ibi similitudo intenditur et tamen albedo diminuitur [illegible]
impossibile est quod de aliquo verificentur duo contradictoria sine mutatione
aliqua et ergo Sortes iam est pater et prius non fuit pater [illegible] de Sorte
verificantur contradictoria cum mutatione [illegible] mutatione Sortis
[illegible] mutatione filii eo quod mutatio est facta in filio [illegible] in
ad aliquid est [illegible] de alio dicitur quod fundatum relationis [illegible] quod [illegible]
est fundatum [illegible] et [illegible] relatio fundatur in [illegible] sicut in actione
et passione eo quod paternitas fundatur in actione maternitas in passione
et similitudo [illegible] fundatur in qualitate et aequalitas in quantitate
est fundamentum [illegible] suppositalis
et hoc est [illegible] tunc dicitur quod relationes fundatae in [illegible] non distinguuntur a funda-
mento [illegible] sicut paternitas non distinguitur a patre [illegible]
[illegible] sed relationes fundatae in [illegible] distinguuntur a fundamento [illegible]
[illegible] paternitas distinguitur ab actione patris eo quod paternitas [illegible]
est [illegible] de relationibus fundatis
in qualitate et in quantitate quia ubi relationes distinguuntur a fundamento [illegible]
sed [illegible] similitudo distinguitur [illegible] non autem distinguuntur a fundamento
[illegible] eo quod similitudo non distinguitur aequalitate ab albedine [illegible]
et aequalitas a quantitate et hoc est [illegible] fundatum [illegible] similitudo
non distinguitur ab albedine sed [illegible] albedo de alio [illegible] dicere simili-
tudo intenditur et intenditur similitudo [illegible] dictum est. Ergo pater-
nitas Sortis distinguitur a Sorte [illegible] relatio distinguitur a re relata [illegible] quia
ad Sortem [illegible] plus requiritur quam Sortem esse Sortem [illegible] paternitas Sortis
est distincta a Sorte [illegible] tenet [illegible] quod ad unum plus
requiritur [illegible] ad aliud [illegible] distinguuntur [illegible] sed [illegible] ad Sortem esse [illegible]
requiritur filius sed ad Sortem esse Sortem non requiritur filius [illegible] Item paternitas
Sortis distinguitur a Sorte [illegible] relatio est res distincta a re relata [illegible] quia pa-
ternitas Sortis formaliter est in ad aliquid sed Sortes formaliter non est in ad aliquid
[illegible] paternitas Sortis non est Sortes [illegible] res absoluta formaliter
est in ad aliquid sed Sortes est res absoluta [illegible] Sortes non est in ad aliquid [illegible]
in ad aliquid hoc est respectivum sed absolutum non est respectivum [illegible] absolutum non est
in ad aliquid. Item paternitas Sortis [illegible] est distincta [illegible] Sortes
sed paternitas et Sortes non [illegible] paternitas Sortis est distincta
a Sorte. Item [illegible] et [illegible] distinguuntur sed paternitas est [illegible] ergo paterni-
tas distinguitur [illegible]
[illegible] paternitas est [illegible] loquendo ad Sortem
esse [illegible] non plus requiritur [illegible] ad Sortem esse Sortem [illegible] loquendo
tunc stat [illegible]
requiritur ad Sortem esse [illegible] relativum [illegible]

Et sic est finis questionum libri postpredicamentorum quarum causa efficiens fuit et est venerabilis vir magister Benedictus Collegiatus Cracoviensis

Circa initium primi libri perihermeneias queritur quid sit subiectum scientie

[illegible]

prima simplicium apprehensio. Et sic tractat de ea liber praedicamentorum
et Porphyrii. Secunda operatio intellectus est compositio vel divisio
et sic tractat de ea liber Perihermenias. Modo sicut secunda operatio
intellectus sequitur primam, sic ars scientia libri Perihermenias
sequitur librum Praedicamentorum. Et scientia libri Perihermenias est de difficiliori
subiecto quam scientia libri Praedicamentorum. Modo difficilior sive perfectior
[illegible]

Sed scientia [illegible] quae quia scientia [illegible]
[illegible] quia enuntiatio est [illegible] superior ad argumentationem
[illegible] quia [illegible] argumentatio [illegible] enuntiatio
[illegible]

Demonstratur [illegible] interpretatio [illegible]
[illegible]

p 6 [illegible] declaratione et hoc [illegible] sufficit quia solum declarat quid
nominis enuntiationis. De alio enuntiatio considerat duplex [illegible]
et in partes [illegible] et est subiectum totius veteris artis. Alio modo
[illegible] et est subiectum partis scientie. Et sic [illegible] quod ipsa in diversas
rationes potest esse subiectum totius et partis [illegible]
[illegible] habere sic equivoce ad partem et ad totum
[illegible] est quod licet [illegible] in diversis rationibus ad partem et ad to-
tum tamen non in diversis rationibus essentialibus sed accidentalibus
sicut ille [illegible] consideraret in ordine ad se [illegible] in ordine
ad sua diffinita non equivoce capitur ad unum rationibus
essentialibus et non accidentalibus ut dictum est [illegible] diffinitio
p 7 equivocorum. De alio enuntiatio est hic subiectum in suppositione
personali quia scientia capit [illegible] a [illegible] significato et hoc
[illegible] et non absoluto signo. Ex quo dicitur enuntiatio est subiectum
[illegible] ab ibi [illegible] enuntiatio supponit [illegible] non potest [illegible]
significato [illegible] supposito personaliter et ergo [illegible] non valet
enuntiatio [illegible] non est [illegible] ut [illegible] ergo [illegible]
enuntiatio et [illegible] sufficienti divisione [illegible] quia enuntiatio
ut dividitur in enuntiationem [illegible] et [illegible] capitur in suppositione
personali non [illegible] enuntiatio non capitur personaliter
[illegible] et non restringit sed restringit [illegible] capitur in alia
suppositione. De alio et [illegible] significatur
et vocatur [illegible] significatur et vocatur
[illegible] non dicitur quod [illegible] enuntiatio [illegible]
[illegible] est subiectum [illegible] scientie et [illegible]
p 9 enuntiatio est subiectum [illegible] tunc una scientia habe-
bit plura subiecta quia scientia [illegible] duo subiecta scientie
[illegible] et enuntiationem [illegible] quod eadem
scientia [illegible] habere plura subiecta [illegible]
p 8 [illegible] habere plura subiecta [illegible]. De alio [illegible] scientia conside-
rat de enuntiatione [illegible] enuntiatio et sic [illegible]
[illegible] enuntiatio [illegible] sed in [illegible] non [illegible]
[illegible] enuntiationem quod [illegible] subiectum [illegible] in [illegible]
[illegible] ad enuntiationem [illegible]
[illegible] demonstrationem [illegible] non est [illegible]
p 9 [illegible] enuntiatio non [illegible] de [illegible]
[illegible] non [illegible] sibi [illegible]

[illegible] scientia considerat de superiori et alie scientie de infe-
[illegible] alie scientie considerant de enuntiatione [illegible]
[illegible] tractat de enuntiatione demonstrativa [illegible]
demonstrativa est [illegible] quod est enuntiatio

De alio non est inconveniens quod subiectum partialis scientie sit quam
in prudo quam subiectum totalis scientie. Ex [illegible] inconveniens si
[illegible] in considerando [illegible] enuntiatio est [illegible] in [illegible]
argumentatio quod omnis argumentatio est enuntiatio N 10
et non [illegible] sed non in considerando quod logicus considerat de enun-
tiatione in ordine ad argumentationem quia reducitur ipsa
ad argumentationem. De alio aliqui dicunt concedit quod aliquid sit N 11
subiectum [illegible] quod omnia considerata in ista scientia debent haber-
[illegible] veritatem in recto vel in obliquo et sic licet
[illegible] vel [illegible] non [illegible] de enuntiatione in recto quia [illegible]
non est vera enuntiatio [illegible] vel [illegible] enuntiatio [illegible] est
vera [illegible] est [illegible] enuntiationis sed [illegible] non valet quod sic sequitur
quod [illegible] licet [illegible] non [illegible] in recto
tamen in obliquo [illegible] est vera [illegible] est [illegible] ergo
[illegible] alio quod [illegible] aliquid sit subiectum [illegible] quod enuntiatio
[illegible] considerata in ista scientia habeant [illegible]
non [illegible] quod subiectum [illegible] sed considerantur
sit [illegible] considerata [illegible] vel in alia scientia reducuntur [illegible]
et sic [illegible] plures reducuntur ad enuntiationem [illegible]
[illegible] ad [illegible] vel alio quod [illegible] enuntiationis [illegible]
[illegible] non determinatur sed in libro topicorum [illegible] ℈
[illegible] et [illegible] reducunt ad enuntiationem [illegible] ad [illegible]
[illegible] enuntiatio [illegible] non [illegible] scientie [illegible]
[illegible] est subiectum [illegible] scientie [illegible] enuntiatio est non [illegible]
[illegible] ergo enuntiatio non est subiectum [illegible] quod [illegible]

non [illegible] quod alias vocatur habet [illegible] N 14
[illegible] et aliquid [illegible] ille [illegible] enuntiatio est

Queritur utrum

[illegible]

eveniet capitulo dupliciter primo [illegible] et sic dicunt quod omne futurum sit in deo [illegible] et [illegible] aliquid est [illegible] contingenter eveniet [illegible] [illegible] et sic [illegible] [illegible] [illegible] futurum sit eo quod sit in deo [illegible] [illegible] sicut est et ideo [illegible] capitulo [illegible] Alio modo capitur [illegible] de necessitate eveniet [illegible] duplici modo de necessitate simpliciter id est eveniet quod sic eveniet quod per nullam potentiam potest impediri [illegible] aliquo de necessitate eveniet [illegible] de lege nature ordinata non potest non evenire et sic [illegible] quod sic eveniet de necessitate eveniet [illegible] et sic [illegible] de necessitate eveniet [illegible] et [illegible] [illegible] [illegible] et non [illegible] sic est [illegible] [illegible] [illegible] non capitur [illegible] eveniet est [illegible] potentiam potest impedire quod non est [illegible] necessario sunt due vie sive opiniones [illegible] est et [illegible] de necessitate eveniet et ista [illegible] [illegible] quod omne futurum est [illegible] et [illegible] aliquid alia [illegible] de necessitate eveniet [illegible] futurum [illegible] [illegible] futurum [illegible] [illegible] [illegible] [illegible] [illegible]

[illegible]

Et ideo quod sic dicunt [illegible] [illegible] de futuro [illegible] aliquid futurum necessario [illegible] [illegible] de futuro [illegible] [illegible] [illegible] [illegible] [illegible] omne futurum de necessitate eveniet [illegible] aliquid futurum de necessitate eveniet [illegible] de futuro de necessitate eveniet [illegible] aliquid futurum de necessitate [illegible] futurum [illegible] aliquid futurum de necessitate eveniet [illegible] deus de necessitate est et [illegible] aliquid futurum de necessitate eveniet [illegible] Item omne futurum de necessitate eveniet [illegible] omne futurum [illegible] eveniet [illegible] omne futurum de necessitate eveniet [illegible] [illegible] Item omne futurum de necessitate eveniet [illegible] futurum de necessitate eveniet et [illegible] de futuro de necessitate eveniet [illegible] omne futurum de necessitate eveniet [illegible] [illegible] futurum [illegible] eveniet [illegible] Item omne futurum [illegible] eveniet [illegible] [illegible] [illegible] [illegible] [illegible] omne futurum sit [illegible] [illegible] [illegible] futurum sit [illegible] eveniet [illegible] de futuro de necessitate eveniet [illegible] omne futurum [illegible] [illegible] [illegible] [illegible] [illegible] futurum [illegible] eveniet et sic [illegible] [illegible] futurum de necessitate est vel non eveniet Alio modo [illegible] et [illegible] est in successione temporis [illegible] [illegible]

[illegible]

evenire non evenient quia [illegible] est certa causa legitima causa
non possit ut dicit [illegible] in [illegible] [illegible] aliquid non est quod de necessitate
erit [illegible] quod non est et erit illud est futurum igitur omne futurum de
necessitate erit [illegible] et suppono quod deus nihil creat tunc
sic hoc creatus non erit et hoc de necessitate erit [illegible]
non est de necessitate [illegible] Item aliquid futurum de necessitate eve-
niet probatur quia deus creans movet celum et solem [illegible]
[illegible] sunt [illegible] et [illegible] de necessitate evenient
non sunt [illegible] De primo plato dixit quod aliud de
necessitate evenient Et sic tunc [illegible] hoc et sexto metha-
physice [illegible] quod omnia de necessitate evenient
Et ergo [illegible] dicit quod omnia de necessitate evenient
non posuit hoc assertive sed solum disputative et ergo
non [illegible] quod sit verum quia non omnia que philosophus
dixit sunt vera sed que dixit assertive illa sunt vera et
secundum propriam opinionem De alio dicitur illa
De alio dicitur [illegible] [illegible] futurum de necessitate non est futurum [illegible]
[illegible] quod dicit [illegible] [illegible] de [illegible] [illegible] nota [illegible] nunquam
dicitur [illegible] in qua [illegible] de [illegible] necesse est falsa non
est semper vera [illegible] veritate [illegible] de [illegible] [illegible]
[illegible] non ampliativus [illegible] de [illegible] quia [illegible] non
[illegible] sit [illegible] est non [illegible] veritate de futuro [illegible] quod [illegible]
vera [illegible] supposito quod sit [illegible] [illegible] [illegible] dea
[illegible] dei [illegible] est activa et ista est [illegible] et [illegible]
non est [illegible] [illegible] alia [illegible] passiva [illegible] sunt
[illegible] et [illegible] est [illegible] [illegible] tunc [illegible]
[illegible] omnia futura evenire [illegible] omne futurum de necessitate
eveniet [illegible] vel [illegible] quod [illegible] de [illegible] dei tunc necessario
eveniet [illegible] est [illegible] sive ad [illegible] passivum tunc
non De alio dicitur quod effectus qui evenient [illegible] causas
[illegible] et [illegible] quocumque [illegible] causa
non [illegible] quod ille effectus de necessitate eveniet [illegible] stat [illegible]
[illegible] causa non eveniet [illegible] dicitur quod non [illegible] positis
causis sufficientibus et necessariis [illegible] effectus quia [illegible]
[illegible] causarum [illegible] impedire potest illum effectum quia si
sic tunc deus necessario [illegible] [illegible] eo quod ab eterno deus
sunt sufficiens causa producendi mundum et [illegible] producere [illegible]
mundum Et ergo ista [illegible] posita causa sufficienti ponitur et effectus
[illegible] veritate in causis [illegible] et non in causis volunta-
[illegible] eo quod [illegible] [illegible] causa sufficiens [illegible] [illegible]
[illegible] et [illegible] [illegible] non [illegible] De alio ad [illegible] quod deus [illegible]
[illegible] [illegible] dicitur hoc creans de necessitate est et hoc creans
non est aliquid [illegible] consequentia non valet [illegible] ibi [illegible] necessaria
[illegible] [illegible] et [illegible] non valet [illegible] hoc creans
non est [illegible] [illegible] ibi de monstrat suppositum tunc [illegible] est
quod hoc creans non est eo quod suppositum est [illegible] deus [illegible]
monstrat suppositum [illegible] modo [illegible] hoc creans non
[illegible] hoc non [illegible] sic [illegible] De alio futura
[illegible] [illegible] questionem [illegible]
sunt [illegible] et ista sunt [illegible] [illegible] sunt futura

[illegible] possunt [illegible] [illegible] [illegible] [illegible] [illegible]
sunt futura [illegible] [illegible] futura [illegible] potentiam divi-
nam ut [illegible] deus intelligit [illegible] [illegible] [illegible] futurum
[illegible] [illegible] ut [illegible] [illegible] [illegible] non tunc [illegible]
futura [illegible] de necessitate evenient non [illegible] [illegible]
[illegible] [illegible] [illegible] aliqua que aliquid futurum
de necessitate eveniet et aliquid non [illegible] quia aliquid futurum
[illegible] [illegible] et [illegible] [illegible] [illegible] [illegible] causas
[illegible] determinata et [illegible]
